50 TIME & WORK PYQs

EASY LEVEL (SSC / RRB / Banking Basics)

Q1. (SSC CGL 2018)

A can complete a work in 15 days and B in 20 days. They start together. In how many days will the work be completed?

Q2. (RRB NTPC 2019)

A alone can complete a piece of work in 10 days while B alone can complete it in 5 days. How long will they take if they work together?

Q3. (SSC CHSL 2020)

A can complete a work in 6 days and B in 12 days. How many days will they take together?

Q4. (IBPS Clerk 2017)

A can complete a work in 8 days. How much work will he complete in 2 days?

Q5. (SSC MTS 2019)

A and B together can complete a work at the rate of 1/4 per day. How many days will they take to complete the work?

Q6. (RRB Group D 2018)

A can complete a work in 20 days. What fraction of work does he complete in one day?

Q7. (SSC CHSL 2019)

A completes 1/5 of a work in 2 days. In how many days will he complete the whole work?

Q8. (IBPS PO Prelims 2018)

A completes a work in 12 days while B completes it in 6 days. What is the ratio of their efficiencies?

Q9. (SSC GD 2021)

A completes a work in 9 days. How much work will he complete in 3 days?

Q10. (RRB NTPC 2020)

A and B together complete 1/6 of a work in one day. How many days will they take to complete the work?

Q11. (SSC CPO 2017)

A completes a work in 4 days. What is his one-day work?

Q12. (IBPS Clerk 2020)

A can do a work in 5 days and B in 10 days. In how many days can they complete the work together?

Q13. (SSC CHSL 2018)

A completes a work in 3 days and B in 6 days. How long will they take together?

Q14. (RRB ALP 2019)

A completes a work in 7 days. What fraction of work is done in one day?

Q15. (SSC MTS 2021)

A and B together complete 1/3 of work in a day. How many days will they take to complete the whole work?

□ MEDIUM LEVEL (MOST IMPORTANT FOR EXAMS)

Q16. (SSC CGL 2019)

A can complete a work in 10 days and B in 15 days. They work together for 2 days after which A leaves. In how many more days will B complete the remaining work?

Q17. (IBPS PO 2020)

A can complete a work in 12 days and B in 18 days. How long will they take working together?

Q18. (RRB NTPC 2021)

A can do a work in 8 days and B in 12 days. What is the difference in their one-day work?

Q19. (SSC CHSL 2019)

12 men can complete a work in 8 days. How many days will 6 men take to complete the same work?

Q20. (IBPS Clerk 2019)

A is twice as efficient as B. If B can complete the work in 12 days, in how many days can A complete it?

Q21. (SSC CGL 2020)

A can do a work in 20 days, B in 30 days. They work together for 5 days. What fraction of work remains?

Q22. (RRB Group D 2019)

8 men can complete a work in 15 days. How many men are required to complete the work in 10 days?

Q23. (SSC MTS 2020)

A is 25% more efficient than B. If B takes 20 days, how long will A take?

Q24. (IBPS PO 2018)

A and B together can do a work in 6 days. B alone takes 12 days. How long will A take?

Q25. (SSC CHSL 2021)

A can do 1/3 work in 4 days. How long will he take to complete the whole work?

Q26. (RRB NTPC 2020)

15 men can complete a work in 12 days. After 4 days, 5 men leave. In how many more days will the work be completed?

Q27. (SSC CGL 2017)

A can complete a work in 9 days and B in 18 days. They work on alternate days starting with A. In how many days will the work be completed?

Q28. (IBPS Clerk 2021)

A can complete a work in 16 days, B in 12 days. They work together for 4 days, then B leaves. Find total time.

Q29. (RRB ALP 2018)

A pipe fills a tank in 10 hours while another empties it in 15 hours. In how many hours will the tank be filled?

Q30. (SSC GD 2022)

A and B can complete a work in 8 days and 12 days respectively. They start together but A leaves after 3 days. Find total time.

Q31. (IBPS PO 2021)

A, B, and C can do a work in 10, 15, and 20 days respectively. How long will they take together?

Q32. (SSC CPO 2019)

If 10 men can do a work in 6 days, how many men are needed to complete it in 3 days?

Q33. (RRB NTPC 2019)

A is 50% more efficient than B. If B takes 18 days, how many days will A take?

Q34. (SSC CHSL 2020)

A completes work in 12 days, B in 15 days. They work together for 3 days. Find remaining work.

Q35. (IBPS Clerk 2022)

A can do a work in 25 days, B in 20 days. They work together for 5 days. Who completes remaining faster?

□ HARD LEVEL (CAT / HIGH SSC / ADVANCED)

Q36. (CAT 2017)

A and B can complete a work in 12 days and 18 days respectively. They work together but B leaves after some days. The work is finished in 8 days. After how many days did B leave?

Q37. (SSC CGL 2022)

A, B, and C together complete a work in 6 days. A alone takes 12 days, B alone takes 18 days. Find time taken by C.

Q38. (IBPS PO Mains 2021)

A is 20% more efficient than B and 50% more efficient than C. If C takes 30 days, find time taken by A and B.

Q39. (CAT 2018)

A can do a work in 10 days, B in 20 days. They work alternately starting with A. In how many days will work be completed?

Q40. (SSC CHSL 2022)

A and B together complete work in 4 days. A alone takes 6 days. Find B’s time.

Q41. (RRB NTPC 2022)

A group of men can complete a work in 20 days. If 5 more men join, work completes in 15 days. Find original number of men.

Q42. (IBPS PO 2022)

A and B together can do a work in 10 days. B and C in 15 days, C and A in 12 days. Find time taken by all three.

Q43. (SSC CGL 2021)

A can complete a work in 24 days. After working 6 days, B joins and work finishes in 6 more days. Find B's time.

Q44. (CAT 2019)

A can do a work in 15 days. B is 50% more efficient. How many days will B take?

Q45. (IBPS Clerk Mains 2021)

A and B together complete work in 8 days. A alone takes 12 days. Find B's efficiency ratio.

Q46. (SSC CPO 2022)

A can do work in 30 days, B in 20 days. They work together but A leaves after 5 days. Find total time.

Q47. (RRB ALP 2021)

A tank is filled by 2 pipes in 12 hours and 15 hours respectively. A leak empties it in 20 hours. Find total time.

Q48. (CAT 2020)

A and B together complete work in 5 days. A is twice as efficient as B. Find individual times.

Q49. (SSC CHSL 2023)

A can do a work in 18 days. B is 20% less efficient. Find B's time.

Q50. (IBPS PO 2023)

A, B, and C together can do a work in 4 days. A alone takes 12 days, B alone takes 6 days. Find C’s time.
